

Wildflower World

Personalised Gift Seed Packets

Weddings

Weddings are such special occasions so here is an opportunity for the wedding couple to give a small personal gift to all their friends and family. With a personal message printed onto a packet of seeds, wedding guests will remember the special day later on when their flowers come into bloom. These packets can be handed out individually, attached to the service sheet given to guests or included as part of a general gift basket. The options are endless.

We will print your name and personal message onto labels attached to our crisp white, 90 x 125 mm seed envelopes. Use our standard designs or design a packet yourself. A mock-up of your packet design can then be emailed to you for your approval. Growing information is on the reverse of the envelope and seeds are in a foil sachet inside.

Some suggestions are:

Thank you for sharing our special day.

Plants these seeds and watch them bloom. Just like the love of the Bride & Groom.

In celebration, please plant and enjoy these flowers, the symbol of true love & fond memories (Forget-Me-Nots)

Symbolic seeds, Plant, water, grow. Just like our love, Reap and sow.

Christmas Gifts and Other Occasions

Delight your friends or associates with a personalised gift of seeds - complete with your name and message. Why not pop them into Christmas cards – memorable but inexpensive personal gifts. Great for Christmas, Christenings, Birthdays, Reunions, Invitations, Funerals or any special occasion. Wildflower World has a number of Christmas designs—please contact us. We will print your own personal message or design on each packet. We can prepare them at short notice.
