

# Wildflower World

**WILDFLOWER AND GARDEN FLOWER SEEDS AND MIXES**

**ANNUAL CATALOGUE Valid to July 2022**

**[www.wildflowerworld.co.nz](http://www.wildflowerworld.co.nz)**

# Welcome to Wildflower World

*- colouring our country*

## Growing wildflowers

*Why wildflowers? It's simple. We choose flowers to celebrate a whole range of events in our journey of life.*

*Wildflowers are timeless survivors of simplistic beauty that will reward you with the most stunningly beautiful displays. Add them today to your landscape and bring miles of smiles to you and your friends.*

*Happy sowing and growing from the Team at Wildflower World.*

## What are Wildflowers?

Wildflowers are original flowers from the wild that have not been altered by mankind. They are survivors and are generally pest and disease free. And, most will re-seed easily.

## What are Garden Flowers?

Many of these flowers are direct descendants of our wildflowers but bred or selected for excellence in colour, fragrance, shape or form. All selections are easy to grow but are best sown into trays for planting out later.

## Wildflower World – Who are We?

We are a small NZ family owned company with many years of mail order seed supply. Our first mail order catalogue was posted in 1990 and since then we have continued to research, trial and tailorise seed mixtures for NZ conditions. Wildflower World introduced landscaping with wildflowers, including their establishment on many roading networks. Our goals are to work further to enhance wildflower growing, their establishment and application to NZ.

## GardenPost

Wildflower World is a sister company to mail order company GardenPost. GardenPost releases four catalogues per year with a fabulous range of the top quality bulbs and gifts, sourced from the best companies nationwide. Both companies offer superb garden products with friendly service and a love of gardening. As we work in the same office products from both companies can be purchased together.

For fast access and quick results pop into our beautiful website - you can order online through our secure server. **Join our 'Grab a Plant' Newsletter** and receive monthly updates and specials.

# Wildflower Mixtures

Growing Wildflowers is so easy

*Wildflowers can be grown wherever you can stretch your imagination, from large meadows to small garden corners. They add a natural look to landscapes and require little effort to grow. All wildflower seeds can be sown directly into the garden, no seed trays, no transplanting. How easy is that? Sow them individually or choose from our glorious mixtures. Wildflower meadows will bring to you an exceptionally attractive palate of colours that change week by week.*

**Full GROWING GUIDE FOR WILDFLOWERS on pages 4 & 5**  
Larger sizes than those listed are always available  
Please contact us with your requirements.

3

***Size is not important***, whether it is a small plot of just a few square metres or a full-blown field. Our mixtures are tailored to suit a wide variety of New Zealand conditions, from tough soils to fertile home gardens. They will give you a natural floral landscape in both urban and rural settings.

***In season flowering*** can begin as soon as 8 weeks after sowing – then the journey begins as one species finishes, another blooms, working up to a crescendo of colour in full season. The bonus is fading flowers put down masses of seed for the next generation.

***Step by step instructions*** are included in each packet. Species in any mixture may alter slightly depending on the availability of seed. Prices are inclusive of GST.

***How much seed do I need?***

Recommended sowing rate is one gram per square metre. Starting at just \$0.40 per square metre for large areas, nothing matches wildflowers for the most cost-effective form of gardening.

# 4 Growing Guide for Wildflowers

*Our wildflowers will grow in a wide range of conditions throughout the country. Some are suited to specific conditions - e.g. Summer Dazzler for hot, dry climates or Made for Shade for shady areas. Most species are good strong self seeders, but having gone through strict bio-security import criteria are not in any way regarded as noxious. All seed packs have step by step instructions.*

## How much seed do I need?

For best results we recommend to sow seed at 1 gram per square metre. However, if you have good quality soil, have put good effort into preparation so your site is clean and weed free and if you are able to provide water during germination, then you could sow seed to a slightly larger area size.

## Where to sow

Anywhere! A square metre or two in a courtyard, dollops under roses or in the veggie garden, down a drive, or go for gold with a full sized meadow! The site does not have to be flat. Banks are good as long as you are able to get on them to clean up. If the bank is very steep look at establishing an area on the crest where maturing wildflowers will seed down the slope, but watch for “wash off” in heavy rain.

Most wildflowers are sun lovers so make sure they receive at least 4-5 hours sun per day—the more the better! But if nothing else is growing on your site (e.g. under large trees) then wildflowers won't either!

## Soil Type

Wildflowers grow well on a wide range of soils. Very impoverished soils can produce stunted seedling growth but a basic foliar fertiliser spray will help. Avoid wet or

soggy soils. Heavy clay or very acid soils will benefit from adding lime - up to 100 grams per square metre. Fertilising the ground is usually not recommended - it will encourage weed growth, but we have had some extremely good results from adding mushroom compost. It improves the structure and fertility of soils and is especially good for clay soils.

## Climate/When to Sow

Sowing can be any time from early spring through to summer and autumn - refer to our map for a guide to your area. Delay spring sowing until you have consistent warm weather. If you have irrigation then seed can be sown all summer too. Autumn sown seeds will over-winter as a green sward and then burst forth for early spring flowering.

Wildflower seeds will germinate and grow when soil and air conditions are warm and airy. Generally speaking they need at least 15 degrees centigrade consistent day temperatures at soil surface. Prolonged cold wet conditions below this will significantly affect germination. Heavy clays can take longer to warm up than sandy loams.

Beautiful wildflower displays are created by good site preparation, sowing at the right time of year and then just a little patience!

Please take time to follow our recommendations.

For large areas good preparation is especially important so we have a “Hot Tips” leaflet that gives more detailed information - please contact us if you would like a copy prior to ordering. Bulk discounts are available for areas larger than those outlined in this catalogue.

## Site Preparation

Wildflower seed must make contact with soil for them to grow. They will not grow on grass or weeds - these must be completely removed and the soil surface broken up to a fine crumb structure. We recommend preparing a site that is completely weed and grass free. This is critical to the successful establishment survival and flowering of individual wildflower species or a meadow.

### A site preparation regime for getting a weedy or grassy area ready would be:

- Spray off with weed killer and allow to die off  
\* see note below
- If dead grass is long, then cut and remove debris
- Lightly cultivate the soil surface to a MAXIMUM depth of 50 mm (sandy loams) or 100 mm (clays). Avoid deep cultivation as this releases dormant weed seeds.
- Allow weeds to colonise area again to a green sward
- Spray again and allow to die down
- Lightly cultivate soil surface again prior to sowing to a good, fine crumb structure.

### Organic Methods

There are a number of organic herbicides (e.g. Interceptor and Greenscape) available on the market—check your local retailer. Alternatives to herbicide sprays are burning off weeds with a flame gun, salt spray, boiling water or overlaying mown areas with a weed free mulch of 50 mm plus. Otherwise, lightly cultivate the soil surface several times to remove weeds, allowing them dry out on the soil surface each time.

### Sowing Seed

For an even distribution mix seed with a carrier agent. Use at least 15–20 parts of a coarse material such as dry river sand or pumice (even potting mix) to 1 part of seed. Lightly coloured sand or pumice shows up well on dark soil and helps to show which areas you have sown! Make sure the carrier agent is dry for easier spreading. For larger areas

a hand held fertiliser spreader is ideal. A very low NPK granular fertiliser (6N 6P 6K) is also an excellent median to use as a spreader/carrier agent to mix with the seed at sowing time.

Ensure the seed is well mixed then broadcast as evenly as possible over the prepared area. Lightly rake or water the seed into the soil. The seed should never be covered any deeper than 2–3 mm as this could inhibit germination.

### Aftercare

Like any other seed wildflowers require ample moisture for the first 4–6 weeks to germinate and establish. They can then usually survive with minimum rainfall but additional water in dry periods will encourage more flowers. Major weeds that reappear can be hoed or spot sprayed in their early stages. Flowering should begin within about 8–10 weeks from a spring or summer sowing.

### After Flowering Cleanup

Once flowering has finished and the plants look a bit untidy then the area can be trimmed or mown down. If there are not many weeds in the area then cut everything down and leave the trimmings on the ground to drop their seed for next season. Pull, hoe or spot spray any weeds. A light cultivation or rake over is recommended to encourage reseedling.

If lots of weeds have crept in then spray the whole area immediately before any new wildflower growth (as you did

at the start of cleanup before sowing).

Then mow or mulch the whole bed to a fine trash.

If the soil surface has hardened off again, lightly cultivate to break this cap to encourage new seedling growth.

More fresh seeds may be required until the area becomes self-perpetuating. For best effect sowing up to 50% of the original amount is recommended, especially if there has been a weed problem. Gently rake new seed into the clean wildflower bed. Some species may become more dominant than others due to local climates and conditions. Experiment to see what will work best for you.

### Warranty

Wildflower World offers our customers the best quality seeds we can find worldwide. Our seed is imported through strict biosecurity regulations so we offer weed-free and fresh seed that has no danger of becoming noxious. We warrant to the extent of the purchase price that all seed is as described on the packet within recognised tolerances. We make no other warranties, expressed or implied. All the seed we sell is untreated and non genetically modified and we can supply a written statement to say the same if required.

\*If you choose to use chemical sprays we advise discussing with your product supplier the effect on the soil/ environment and their own warranty in relation to the effect on newly sown seed.

# Lowfield Meadow

*Premium wildflower mix for a colour extravaganza*

*Our premium wildflower mix for a colour extravaganza. Quick into flower and very long flowering with new plants beginning to flower as old ones fade. Brilliant colour range beginning with gentle soft tones of pink, mauve and white in the early season drifting into vibrant yellow and red drought tolerant species to give seemingly everlasting summer colour. Suitable for both large and small areas, A well behaved mix with a height profile of 30-70 cm.*

## Sizes Available: Use 1 gram per m<sup>2</sup>

15 grams:	\$15.90
50 grams:	\$40.80
100 grams:	\$69.00
250 grams:	\$151.00
500 grams:	\$234.00
1000 grams:	\$413.00
2000 grams:	\$765.00

## Contains:

*Centaurea-mixed cornflower & dwarf blue, Clarkia – Farewell to Spring, Coreopsis-Plains & Dwarf Red, Dianthus – Sweet William, Dimorphotheca-African daisy, Gaillardia-Indian blanket, Gilia –Birds eyes, Gilia – Globe Gilia, Gypsophila-Baby's breath, Linaria- Toadflax, Linum-Scarlet flax, Lobularia-Sweet alyssum, Lupinus-Dwarf Lupin, Malcomia-Virginia stock, Nigella – Love in a Mist,, Papaver-Corn poppy, Silene- Catchfly,*

**Suggested Uses:** Garden borders, country meadows, driveways, schools, roadsides, golf courses, club houses, hillsides **Code 580**

# Highfield Meadow

*Make a Standout Statement with taller growing Wildflowers*

*Big, bold and beautiful – the real essence of a wildflower garden. This is a strong and powerful mix with brilliant colours making it suitable for both small and large areas. Flowering begins with pastel pinks, whites & blues before moving onto the drought tolerant, bright yellows and reds for the midsummer sun. Height range 50 -100 cm.*

## Sizes Available: Use 1 gram per m<sup>2</sup>

15 grams:	\$15.90
50 grams:	\$40.80
100 grams:	\$69.00
250 grams:	\$151.00
500 grams:	\$234.00
1000 grams:	\$413.00
2000 grams:	\$765.00

## Contains:

*Centaurea-tall blue cornflower, Chrysanthemum-Garland daisy, Coreopsis- Plains & Red, Cosmos- Mixed cosmos, Cosmos- Sulphur Cosmos, Gynoglossum-Forget-me-Not, Eschscholzia-Californian poppy, Gaillardia-Blanket flower, Gypsophila – Baby's Breath, Oenothera-Evening primrose, Papaver-Corn poppy & red poppy, Phacelia-Purple tansy, Ratibida columnifera & Rudbeckia-Black eyed Susan*

**Suggested Uses:** Garden borders, country meadows, driveways, roadsides, schools, golf courses, club houses, commercial buildings **Code 565**

## Bee Friendly Mix

*Brighten up your garden  
with bee friendly flowers*

*Plant wildflower seeds in your garden or patio pots to provide essential nutrition for bees. Bees are vital for the pollination of many flowers. This mixture has been composed of flowers that are proven bee favourites in our gardens. Bees will forage on these flowers for nectar and pollen which provide carbohydrates and protein for growth and energy. Well-nourished bees are more capable of fending off disease and parasites. It is easy to carry out pollinator conservation. You can preserve and build a safe bee habitat by reducing insecticide spraying and plant flowers that provide nutrition. Mix contains a range of colourful flowers that will brighten any garden. Height 20-60cm*

### Sizes Available: Use 1 gram per m<sup>2</sup>

15 grams: \$15.90  
50 grams: \$40.80  
100 grams: \$69.00  
250 grams: \$151.00  
500 grams: \$234.00  
1000 grams: \$413.00  
2000 grams: \$765.00

### Contains:

*Calendula—English Marigold, Centaurea—Mixed cornflower, Cheiranthus allionii, Clarkia—Farewell to Spring, Cynoglossum—Forget-me-Not, Eschscholzia—Californian Poppy, Gaillardia—Blanket Flower, Gilia—Globe Gilia, Linaria-Toadflax, Linum - Common Blue Flax, Lobularia—Sweet alyssum, Malcomia—Virginia Stock, Nemophila—Baby Blue Eyes, Papaver—Corn Poppy, Reseda—Sweet Mignonette, Tagetes—French Marigold*

**Suggested Uses:** Flower or vegetable gardens and organic gardens. Annual or perennial borders. **Code 520**

7

## Bees Birds & Butterflies

*Pollinate your flowers and create  
a beautiful garden*

*A special mix of wildflowers designed to attract bumble bees, honey bees, butterflies and other beneficial insects into your garden - colourful magnets for our nature's friends. These beneficials will love to dine at your place! In addition you will enjoy a myriad of gorgeous flowers including poppies, cornflowers, and cosmos*

*Taller growing than our Bee Friendly Mix. H40-100cm*

### Sizes Available: Use 1 gram per m<sup>2</sup>

15 grams: \$15.90  
50 grams: \$40.80  
100 grams: \$69.00  
250 grams: \$151.00  
500 grams: \$234.00  
1000 grams: \$413.00  
2000 grams: \$765.00

### Contains:

*Centaurea cyanus—Mixed Cornflower, Cosmos bipinnatus—Mixed Cosmos, Cynoglossum—Forget-Me-Not, Gaillardia pulchella—Indian Blanket, Gilia tricolour—Bird's Eyes, Gypsophila elegans—Baby's Breath, Linaria maroccana—Toadflax, Linum rubrum—Scarlet flax, Lobularia—Sweet Alyssum, Malcomia maritima—Virginia Stock, Papaver rhoeas -Corn Poppy & Red Poppy, Phacelia tanacetifolia—Purple Tansy, Silene armeria—Catchfly, Rudbeckia hirta—Black Eyed Susan.*

**Suggested Uses:** Garden borders, Vege gardens, driveways, organic and tourist gardens, **Code 624**

# Summer Dazzler

**WOW Factor**  
**Sizzling colours for Hot Sunny Days**

*Hot, sun-scorched colours especially good for dry areas. Brighten up those summer days with these hot colours — a spectacle of dazzling red, orange and yellow interrupted by occasional white and blue. Drought tolerant mix of tough and strong plants that will handle difficult conditions. Great for areas with low water availability, especially coastal areas. Height 40-80 cm.*

## Sizes Available: Use 1 gram per m<sup>2</sup>

15 grams:	\$15.90
50 grams:	\$40.80
100 grams:	\$69.00
250 grams:	\$151.00
500 grams:	\$234.00
1000 grams:	\$413.00
2000 grams:	\$765.00

## Contains:

*Calendula officinalis*, *Centaurea*-tall blue cornflower, *Coreopsis*- Plains & Red, *Cosmos*-White cosmos, *Cosmos*- Sulphur cosmos, *Eschscholzia*-Californian poppy, *Gaillardia*-Blanket flower, *Gaillardia*-Indian blanket, *Linum*-Blue flax, *Lobularia*-Sweet alyssum, *Papaver* - red poppy, *Phacelia*-Californian bluebell, *Phacelia*-Purple tansy, *Ratibida* - Mexican Hat, *Rudbeckia*-Black eyed Susan, *Rudbeckia*-Gloriosa daisy and *Rudbeckia*-Clasping coneflower

**Suggested Uses:** Garden borders, country meadows, driveways, roadsides, golf courses, schools, club houses, seaside gardens, dry areas with limited water **Code 595**

# Country Road

**The perfect solution  
for Large Gardens**

*Imagine a carefree existence with clear, uncomplicated days, butterflies, picnics and children picking bouquets. For lovers of large wildflower meadows here it is. Wildflower World has formulated this mix especially for large meadow or roadside areas. Sow in spring/early summer or autumn. The incredible colour range of toadflax leads into the stunning blue of the cornflowers, chased by the wow of the red poppies and concluding with the resilient cosmos and coreopsis. Fourteen very tough species to grow on nearly every site - hard baked clays to sandy loams. H 80-100 cm (for smaller sized packets look at Highfield Meadow)*

*We will help you step-by-step with our 'Hot Tips' leaflet that comes with each order.*

## Sizes Available: Use 1 gram per m<sup>2</sup>

15 grams:	\$15.90
50 grams:	\$40.80
100 grams:	\$69.00
250 grams:	\$151.00
500 grams:	\$234.00
1000 grams:	\$413.00
2000 grams:	\$765.00

## Contains:

*Calendula* – English Marigold, *Centaurea*-Tall blue cornflower, *Clarkia*-Farewell to Spring, *Coreopsis*-Plains and Red *Coreopsis*, *Cosmos*-Mixed cosmos, *Cynoglossum*-Forget-me-Not, *Dimorphotheca*-African daisy, *Eschscholzia*-Californian poppy, *Papaver* -Corn poppy & red soldier poppy, *Phacelia*-Purple tansy, *Ratibida* – Yellow Coneflower, *Rudbeckia*-Black eyed Susan, *Silene*-Catchfly.

**Suggested Uses:** Road verges, driveways, tanker tracks, country meadows. **Code 690**

# Poppy Fields

*Garnish the landscape with this mix of poppies of every type, style and colour*

*Poppies are surely Nature's jewellery, individually splendid, collectively glorious. Everybody loves poppies. No wonder - no other flower has such lavish beauty besides being so easy to grow. They beg creativity - so paint a picture, plant a rainbow, incite a riot of vibrant colour! Not surprisingly, this is one of our most popular mixtures. Here is a combination of six poppies with a sprinkle of other blue and white wildflowers to harmonise and blend and make a real dreamy garden. Height 40-80 cm*

## Sizes Available: Use 1 gram per m<sup>2</sup>

15 grams:	\$15.90
50 grams:	\$40.80
100 grams:	\$69.00
250 grams:	\$151.00
500 grams:	\$234.00
1000 grams:	\$413.00
2000 grams:	\$765.00

## Contains:

*Papaver rhoeas - bright red 'Soldier' poppy, Papaver rhoeas - glamorous pink, white and bicoloured corn poppy, Eschscholzia californica - a golden orange favourite, Eschscholzia White Linen - creamy white, Eschscholzia - Mission Bells, Eschscholzia Mikado-mahogany red, Eschscholzia Brilliant - mixed colours. Plus 10% white Baby's Breath, Californian Bluebells & white Alyssum.*

**Suggested Uses:** Annual or perennial borders, driveway edges or any existing or new sunny garden area needing extra colour.

(Note - as Papaver seed is very fine, smaller amounts are required to cover specific areas) **Code 570**

# Cottage Garden

*Create the romance of a cottage garden with these old time favourites. Fill garden borders with these exuberant, free-flowering and sometimes unrestrained flowers. Each packet has two mixtures - one tall growing mix for the back of the border and one lower growing mix for the front. Colours are all pastel pink, white, mauve and blue. All are annuals that have good self-seeding abilities - let your imagination and creativity run wild.*

## Sizes Available: Use 1 gram per m<sup>2</sup>

15 grams:	\$15.90
50 grams:	\$40.80
100 grams:	\$69.00
250 grams:	\$151.00
500 grams:	\$234.00
1000 grams:	\$413.00
2000 grams:	\$765.00

## Seventeen species in a 2 packet mix:

*Tall - Over 60 cm: Ammi-Queen Anne's Lace, Centaurea-Mixed cornflower, Cheiranthus-English wallflower, Cleome - Spider Flower, Delphinium-Larkspur, Lavatera-Rose mallow, Papaver-Corn poppy & Phacelia-Purple tansy*

*Small - Under 60 cm: Clarkia-Farewell to Spring, Collinsia Chinese Houses, Coreopsis - Dwarf Red, Eschscholzia - White Linen, Gilia- Globe Gilia, Gypsophila- Baby's breath, Iberis - Candytuft, Malcomia-Virginia stock, Nemophila-Five spot, Silene-Nodding Catchfly.*

**Suggested Uses:** Old fashioned rose gardens, perennial borders or any type of existing or new garden area needing extra colour.

**Code 610**

# 10 Pollinator Mix

## Wildflower Rescue Remedy

*Contains a range of nectar and pollen producing flowers to attract pollinating insects into your garden or orchard. Pollinators (bees, butterflies, birds, flies, moths, beetles etc.) are essential for the production of food and flower crops. Wildflowers are an important rescue remedy providing a healthy food source for insects that in turn will lead to healthy plants producing bigger and better fruit. This is not only critical to maximise returns but is so important in the preservation of our planets food chains. Not only that, it is the most beautiful sight to behold! H30-90cm*

### Sizes Available: Use 1 gram per m<sup>2</sup>

15 grams:	\$15.90
50 grams:	\$40.80
100 grams:	\$69.00
250 grams:	\$151.00
500 grams:	\$234.00
1000 grams:	\$413.00
2000 grams:	\$765.00

### Contains:

*Ammi majus-Queen Anne's Lace, Calendula – English marigold, Centaurea-Blue cornflower, Cheiranthus-Siberian wallflower, Echinacea – purple cone flower, Eschscholzia – Californian poppy, Gaillardia – Indian Blanket, Linaria – Toadflax, Lobularia-Sweet alyssum, Lotus barsilvia, Papaver rhoeas – red soldier poppy, Phacelia-Purple tansy, Ratibida – Mexican Hat, Silene-Catchfly, Tagetes-French marigold*

**Suggested Uses:** Flower or vegetable gardens, orchards, vineyards, organic gardens, children's gardens This mix is suitable for organic purposes as well as aesthetical – tourist operations, particularly vineyards, also use it to attract visitors! **Code 626**

# Made For Shade

First Year

Second Year

*Pastel colours will brighten your shady nooks. Who says you can't have colour in the shade? With this shade tolerant mix you can! Low growing pastels and bright blues in the first year, boosted by taller white, mauve and yellow perennials in the second. Best suited for light shaded areas with strong, filtered sun or a minimum of 1-2 hours of direct sun per day. Try it under trees or the shady side of the house. Don't put it in heavy shade.*

*Note: Will grow in full sun as well. Good all year around ground cover. Height 50-80 cm*

### Sizes Available: Use 1 gram per m<sup>2</sup>

15 grams:	\$15.90
50 grams:	\$40.80
100 grams:	\$69.00
250 grams:	\$151.00
500 grams:	\$234.00
1000 grams:	\$413.00
2000 grams:	\$765.00

### Contains:

*Aquilegia-Granny's bonnets, Chrysanthemum-Shasta daisy, Cynoglossum-Forget-me-Not, Delphinium-Larkspur, Dianthus-Sweet William, Echinacea- Purple cone flower, Gypsophila- Baby's breath, Linum –Blue flax, Lunaria – Honesty, Malcomia-Virginia stock, Nemophila-Five Spot, Nigella – Love-in-a-mist Miss Jekyll, Papaver-Corn poppy, Viola –Johnny Jump Ups*

**Suggested Uses:** Garden borders with light or dappled shade, southern facing borders with half-day direct sun, gardens under high branches, edges of lawns or lightly foliated tree-lined driveways, sunny borders. **Code 600**

# Moody Blues

*True blue flowers  
infused with white*

*Blue flowers evoke a dreamlike state and when mixed with white they have a calming effect.*

*All of these flowers are true blue, mixed with the purity and innocence of white giving harmony and accent.*

*Sow this low growing mix in amongst garden borders to perfectly offset and balance other colours. Height 20-30cm*

**Sizes Available:**  
**Use 1 gram per m<sup>2</sup>**

15 grams: \$15.90  
50 grams: \$40.80  
100 grams: \$69.00  
250 grams: \$151.00  
500 grams: \$234.00  
1000 grams: \$413.00  
2000 grams: \$765.00

**Contains:**

*Anagallis monellii* - Cornflower Dwarf Blue,  
*Chrysanthemum* - Snow Daisy, *Cynoglossum* - Chinese  
*Forget-me-not*, *Gypsophila* - Baby's Breath, *Linum*  
- Blue Flax, *Lobularia* - Sweet Alyssum, *Nemophila* -  
Baby Blue Eye, *Phacelia* - Californian Bluebell

**Suggested Uses:** Front of Garden borders, Vege Gardens,  
Driveways, Rockeries. **Code 618**

# Hot & Wild

11

*Hot, sun-scorched colours*

*Hot, sun-scorched colours perfect for dry, sandy or stony  
areas. Similar to our Summer Dazzler Mix but lower  
growing, making it a great choice for smaller gardens.  
It is bright and will make a really wild statement with the  
assistance of a little water to get started.*

*Sound like you? Height 30-35 cm.*

**Sizes Available:**  
**Use 1 gram per m<sup>2</sup>**

15 grams: \$15.90  
50 grams: \$40.80  
100 grams: \$69.00  
250 grams: \$151.00  
500 grams: \$234.00  
1000 grams: \$413.00  
2000 grams: \$765.00

**Contains:**

*Calendula* - English marigold, *Cheiranthus* -  
Siberian wallflower, *Cynoglossum* - Forget-Me-Not,  
*Dimorphotheca* - African daisy, *Eschscholzia* -  
Californian poppy, *Lobularia* - Sweet Alyssum,  
*Phacelia* - Californian bluebell, *Tagetes* - French  
marigold

**Suggested Uses:** Seaside gardens, Garden borders,  
Areas with limited water. **Code 635**

## Shades of Blue

*A premium blend of blue garden and wildflowers in shades of blue*

*Colours range from pale baby blue to deep midnight shades. Blue flowers are associated with serenity and calm. Lighter blues conjure up clear skies and still water and images of the great outdoors, while the darker shades look visually striking in any flower arrangement. Height 40-80cm*

**Sizes Available:**  
**Use 1 gram per m<sup>2</sup>**

15 grams: \$15.90  
50 grams: \$40.80  
100 grams: \$69.00  
250 grams: \$151.00  
500 grams: \$234.00

*Mixture contains a blend of:*  
*Ageratum, Callistephus, Centaurea, Convolvulus,*  
*Cynoglossum, Delphinium, Lathyrus, Limonium,*  
*Linum, Nigella, Salvia*

**NEW**

# Small Garden Mixes

Small or large gardens can enjoy all the fun of wildflowers. Wildflower World has designed these special mixes especially for small corners of your garden. They are suited for sunny garden borders, pots and planter boxes

15

## BUTTERFLIES ADD COLOUR, MOVEMENT AND BEAUTY TO YOUR GARDEN

This gourmet blend of wildflowers will provide hours of enjoyment by enticing our iridescent flying friends. Here is a balanced mix of colourful annuals and perennials of mixed heights and flowering periods. Specially formulated for butterfly conservation, it contains many beautiful wildflowers that are attractive to butterflies as sources of nectar. Height: 30-70 cm

*Calendula—English marigold, Cornflower—Mixed, Cheiranthus—Siberian Wallflower, Cynoglossum—Forget-me-Not, Coreopsis—Plains and Red, Dianthus—Sweet William, Delphinium—Rocket larkspur, Dimorphotheca—African daisy, Iberis—Candytuft, Linaria—toadflax, Linum—Blue flax, Lobularia—Sweet Alyssum, Rudbeckia—Black eyed Susan*

Sizes Available: (use 1 gm per m<sup>2</sup>) 5 grams \$9.00 10 grams \$13.25 Code 621

## GROW A WIDE ASSORTMENT OF FLOWERS FOR GARNISHES, DECORATION AND FLAVOURS

Edible flowers have been used for many years in cooking, to enhance salads with their colour, texture and intriguing flavours and also for decoration. This mix consists of appealing flowers and blooming herbs for the eye and palate. Petals and leaves are for use as garnishes and flavours. Some are spicy, some are floral and some are fragrant.

Sow this mix directly into existing sunny borders or tuck into your vegetable garden. They will do well in containers and are perfect for attracting pollinating insects to your garden. Sow from Spring to Autumn.

It is always best to grow your own edible flowers so you can be sure that they are clean, fresh and free from pests and disease. They are always best picked fresh from the garden the day you want to use them. H 30-60cm

*Calendula—English Marigold, Coriander, Chives, Dianthus—Sweet William, Lavender Hyssop, Basil—Red Rubin, Tropaeolum—Nasturtium, Sweet Basil, Viola—Johnny Jump-Up*

Note: Details on each variety and their uses are on our website.

Sizes Available: (use 1 gm per m<sup>2</sup>) 5 grams \$9.00 10 grams \$13.25 Code 611

## GROW A CARPET OF COLOUR WITH THIS FAST, LOW GROWING MIX.

Line a pathway or tuck into nooks and crannies. Pour them into buckets, spill them out of boxes—overflow your garden with flowers. Quick to germinate and flower—mostly pastel colours with bright blue and red highlights. Height 20-35 cm.

*Adonis—Pheasant's Eye, Chrysanthemum—Snow daisy, Dianthus—China Pinks, Eschscholzia—Dwarf Californian poppy, Gilia—Birds eyes, Gypsophila—Baby's breath & Deep Carmine, Linaria—Dwarf Toadflax, Lobularia—Sweet alyssum, Malcomia—Virginia stock, Nemophila—Five spot, Phacelia—Californian bluebell, Silene—Catchfly & Verbena—Moss*

Sizes Available: (use 1 gm per m<sup>2</sup>) 5 grams \$9.00 10 grams \$13.25 Code 622

## SOW THESE ON TOP OF YOUR BULBS TO EXTEND YOUR SPRING COLOUR

This mix is designed for sowing on top of your bulbs for spring and summer colour after your bulbs have finished flowering. It can be sown in autumn or spring. The mix has short flowers that will follow on from your flowering bulbs and hide their foliage as they die down, giving lots of colour in one area for a longer period of time. Height 20-30 cm

*Adonis—Pheasant's Eye, Chrysanthemum—Snow Daisy, Coreopsis—Dwarf Red, Delphinium—Rocket Larkspur, Eschscholzia—Dwarf Californian Poppy, Gilia—Globe Gilia, Gypsophila—Baby's breath, Linaria—Toadflax, Malcomia—Virginia stock, Nemophila—Five spot, Nemophila—Baby Blue Eyes, Phacelia—Californian Bluebell, Silene—Catchfly*

**CICHORIUM INTYBUS**  
*Chicory*

Chicory is a tap-rooted perennial with blue flowers that is native to Eurasia and northern Africa. It is very adaptable and drought tolerant, making it useful for reclamation. Chicory roots can be used as a coffee substitute.

*P. Sun/Sh Dry. S. 900 sds/gm.*  
*3gms \$4.60, 10 gms \$11.60*  
*Code 122*

**CLARKIA AMOENA**  
*Farewell to Spring; Godetia*

Two-tone light and dark pink flowers made up of four, fan-shaped petals with a silvery sheen. A most flamboyant Californian wildflower often thought to be more beautiful than any hybrid ever 'created' from it. Requires little moisture once established. H30 cm.

*Sun. Dry. Sp-S. 2500 sds/gm..*  
*3 grams \$4.00*  
*Code 155*

**CLEOME HASSLERANA**  
*Spider Flower*

Longtime favorite of cottage gardens because of its attractive foliage and flowers and its ability to take summer heat. Fast-growing plants attract beneficial insects and butterflies into the garden. Its flowering stalks are crowded with whiskery, spider-like, white, pink, or purple flowers.

H150cm

*A. Sun. S-Au 400 seeds \$4.00*  
*Code 159*

**COLLINSIA HETEROPHYLLA**  
*Chinese Houses*

Very pretty lavender & white, snapdragon-like flowers in bands around narrow stems, rather resembling a pagoda. Flowers in great profusion in spring and early summer. A native to California that is loved by bees. H40cm

*A. Sun. Sp/S. 1600 sds/gm.*  
*3 grams \$4.60, 10 grams \$11.60*  
*Code 160*

**COREOPSIS TINCTORIA**  
*Dwarf Red*

A hardy, easy, American annual. This dainty little plant will burst alive in spring covered with mahogany-red, daisy-like flowers and if kept trimmed will flower most of the summer. Likes full sun in moist or dry conditions. Unusual colour makes this one a winner. H40 cm.

*Sun/Sh. Dry. S-Au. 3000 sds/gm.*  
*grams \$4.60, 10 grams \$11.60*  
*Code 170*

**COREOPSIS TINCTORIA**  
*Plains Bicolor*

Vibrant yellow flowers with maroon centres on branching stems above finely divided foliage. A real traffic stopper in large drifts on its own. Will survive most conditions, from low lying, soggy areas to dry, drought prone areas. Highly recommended. H40-50cm

*A. Sun/Sh. Dry. S-Au. 3000 sds/gm.*  
*3 grams \$4.60, 10 grams \$11.60*  
*Code 180*

**COSMOS BIPINNATUS**  
*Cosmos Tall Mixed*

Hundreds of large, single, crimson, soft pink and white flowers on tall plants. Wonderful colour maker that lights up everything, flowering constantly from summer until stopped by frost- continuing through winter in warm areas. Incredibly tolerant of infertile soils. H1.5 m plus.

*A. Sun. Dry. S-Au. 150 sds/gm.*  
*3 grams \$4.60, 10 grams \$11.60, 20 grams \$19.00*  
*Code 200*

**COSMOS BIPINNATUS**  
*Tall White*

Pure white selection of the above. An outstanding background plant that will bloom all summer, even under heat and humidity. Fill up your borders with this fast growing annual, but don't apply any fertiliser as this can cause straggly plants. H1.5m

*A. Sun. Dry. S-Au. 150 sds/gm.*  
*3 grams \$4.60, 10 grams \$11.60*  
*Code 201*

**COSMOS BIPINNATUS**  
*Cosmos Tall Yellow*

The flowers of this variety have yellow petals that fade to a creamy white when finished blooming. Suitable for cutting, beds and borders, and the pollinator garden. H1.5m

*A. Sun. Dry. S-Au. 150 sds/gm.*  
*3 grams \$4.60, 10 grams \$11.60*  
*Code 206*

**COSMOS BIPINNATUS**  
*Sensation Dwarf Mix*

Compact plants with large flowers in white and many shades of pink. All the beauty of taller growing Cosmos but with plants only reaching 30-40cm high. The lovely ferny foliage and elegant blooms make them ideal to mingle with other plants in your summer garden. Sow direct into a sunny area.

*A. Sun. Su/Au 300 seeds - \$4.60*  
*Code 127*

**COSMOS SULPHUREUS**  
*Sulphur Cosmos Dwarf Red*

Dwarf Red Sulphur Cosmos plants grow to just 18–24 inches tall and have deep scarlet flowers. It is an easy to grow annual that is great in mass plantings as well as beds & borders. Flowers attract bees and butterflies and are perfect for the pollinator garden. H50cm

*A. Sun. S-Au. 130 sds/gm.*  
**3 grams \$4.60, 10 grams \$11.60**  
Code 128

**COSMOS SULPHUREUS**  
*Sulphur Cosmos Yellow*

An easily adaptable, half hardy Mexican native. The glowing orange and bright yellow, semi-double flowers are extremely attractive, constantly blooming for many weeks. Requires little moisture once established. Sow in spring or summer only—not winter hardy. H80 cm.

*Code 400*

### **PAPAVER RHOEAS**

#### **Soldier Poppy**

Unforgettable hardly describes a mass planting of red poppies. This is probably the world's most popular wildflower! The single blooms on this European annual are fire-engine red with vividly marked black centres. Sow in autumn & spring into light soil where it will return year after year. H60-80 cm.

*A. Sun/Sh. Sp-S. 7000sds/gm.*  
**grams \$4.60, 10 grams \$11.60, 20 grams \$19.00**  
*Code 405*

### **PENSTEMON PALMERI**

#### **Wild Pink Snapdragon**

This southwest US native thrives in the harshest conditions. A true showstopper when in bloom. Pink flowers have a sweet scent and are a favorite among bumblebees. Sage green leaves skirt the upright stems. Large and dramatic. Fairly easy to grow, loves hot & dry and good drainage. Tolerates clay quite well. Hardy. H80cm

*P. Sun. Dry. Sp-S. 1200sds/gm.*  
**2 grams \$4.60, 10 grams \$11.60**  
*Code 421*

**PENSTEMON STRICTUS**  
*Rocky Mountain Penstemon*

Tall showy spikes of intense blue-purple, tubular flowers last for many weeks in spring & summer. The plants will spread steadily to form large clumps. This is one of the longest lived, most easily grown Penstemons. A real showstopper! Hardy. H 60-80 cm

*P. Sun. Sp-S. 1200 sds/gms.*  
*3 grams \$4.60, 10 grams \$11.60*  
*Code 420*

**PHACELIA CAMPANULARIA**  
*Californian Bluebell*

Inky-blue, flowers with long golden stamens - one of nature's most extravagant shades of blue. Of course, it is drought resistant, but responds to normal rainfall and watering, forgetting all about its Californian desert home. A treat, especially when sown with white Gypsophila H20 cm

*A. Sun. Dry. Sp-S. 1800 sds/gm.*  
*3 grams \$4.60, 10 grams \$11.60*  
*Code 425*

**PHACELIA TANACETIFOLIA**  
*Purple Tansy*

Fragrant flowers with lavender petals and long stamens radiating outwards giving a lacy appearance. Finely cut foliage on this hardy European species. This plant will attract beneficial insects into your garden. We use it in our Pollinator Mix. Easy. Reseeds freely. H80 cm.

*A. Sun. Sp-S. 500 sds/gm.*  
*3 grams \$4.60, 10 grams \$11.60*  
*Code 430*

**PHLOX DRUMMONDII**  
*Red Annual Phlox*

A showy annual which is native to Texas and the southeastern U.S. It is a bright, carmine red. In the right conditions, it will re-sow itself from year to year. Plant it in the front of the border or in wildflower mixtures. H30-40 cm.

*A. Sun. S-Au. 500 sds/gm.*  
*3 grams \$4.60, 10 grams \$11.60*  
*Code 432*

**RATIBIDA COLUMNIFERA**  
*Mexican Hat*

An upright native American species. Dainty flowers with central cones surrounded by drooping red and yellow petals. These cute 3-4 cm flowers look all the world like a Mexican sombrero. Drought resistant plants suited for hot or humid climates. A true delight. H60 cm.

*B/P. Sun. Dry S-Au. 1700 sds/gm.*  
*3 grams \$4.60, 10 grams \$11.60*  
*Code 435*

**RUDBECKIA AMPLEXICAULIS**  
*Clasping Coneflower*

A hardy American annual with black, cone-shaped heads surrounded by bright yellow, drooping rays of petals, all turning slightly inwards. Loves full sun but will tolerate moist soils. Self seeds freely and is good cut flower. H50 cm.

*A. Sun/Sh. Dry S-Au. 1700 sds/gm.*  
*3 grams \$4.60, 10 grams \$11.60*  
*Code 445*

**RUDBECKIA HIRTA**  
*Black Eyed Susan*

American wildflower with it's characteristic large brown, domed flower centres surrounded by bright yellow rays of petals. Thrives in clay to sandy soil. and loves hot and dry conditions. Very easy and a major colour-maker in borders or meadows. H70 cm

*A/P. Sun. Dry. S-Au. 2200 sds/gm.*  
*3 grams \$4.60, 10 grams \$11.60*  
*Code 450*

**RUDBECKIA HIRTA**  
*Gloriosa daisy*

Large yellow and mahogany-red daisies on branched stems. Will flower all summer until first frosts. Gloriosa daisies are a tetraploid selection which means that they are strong and vigorous. Hardy plants for dry areas. Fabulous for meadow colour and picking. H80-90 cm

*A/B. Sun. Dry. S-Au. 1500 sds/gm.*  
*3 grams \$4.60, 10 grams \$11.60*  
*Code 451*

**SALVIA COCCINEA**  
*Scarlet Sage*

An annual to tender perennial, 40-70 cm tall with bright, scarlet flowers. Good nectar producer and attracts pollinators. Multi-functional - use in beds & borders, wildflower mixtures, cutting gardens, pollinator gardens and reclamation projects. An invigorating fragrance.

*A Sun S-Au 600 sds/gm*  
**3 grams \$4.60, 10 grams \$11.60**  
Code 455

**SILENE ARMERIA**  
*Catchfly; None-So-Pretty*

A favourite with children that thrills first time wildflower gardeners with its prolific, foolproof bloom. Rose-pink clusters of small flowers in about 6-8 weeks after germination. 'Catchfly' refers to the plant's sticky sap - does not attract or catch flies. Seeds freely. H20-30 cm

*A. Sun/Sh. Sp-S. 9800 sds/gm.*  
**3 grams \$4.60, 10 grams \$11.60**  
Code 460

**SILENE PENDULA**  
*Nodding Catchfly*

Pink flowers in loose clusters on upright stems. Grow in ordinary garden situations, borders or rockeries - loves to spill over walls and garden edges. A quick growing compact plant from the Mediterranean. Sow spring to autumn - we have it flowering here all winter. H30 cm

*A/B. Sun Sp-Au. 1300 sds/gm.*  
**3 grams \$4.60, 10 grams \$11.60**  
Code 461

**TAGETES PATULA**  
*French Marigold*

Marigolds have been grown for years as companion plants in the veggie or herb garden. Not only do they keep away pests, but they will really brighten up the area. Brown-crimson or yellow flowers above deeply cut foliage. Easy all year around. Seeds down well. H20-30 cm

*A. Sun. Sp-Au. 280 sds/gm.*  
**2 grams \$4.60, 10 grams \$11.60**  
Code 470

**TITHONIA ROTUNDIFOLIA**  
*Mexican Sunflower*

Produces stunning, deep orange flowers that set it apart from other sunflowers. Flowers are up to 10cm wide and attract bees and butterflies. This species is native to Mexico and is heat and drought tolerant. Recommended for the back of the border, cutting garden and pollinator garden. H160-180 cm

*A. Sun. Dry. S-Au. 100 sds/gm.*  
**3 grams \$4.60, 10 grams \$11.60**  
Code 472

**VERBENA TENUISECTA**  
*Moss verbena*

A ground hugging, evergreen perennial with deeply cut, aromatic foliage. Clusters of deep lilac flowers come and go all summer long. Likes a dry garden area and even grows in stoney soil. Drought tolerant. Very attractive to butterflies. H20-30cm

*P. Sun, Dry. Su 800 sds/gm.*  
**2 grams \$4.60, 10 grams \$11.60**  
Code 480

**VIOLA CORNUTA (TRICOLOR)**  
*Johnny Jump Up*

Cheeky little plant from the Pyrenees with cheerful purple, yellow and white 'faces'. Likes a rich, well drained soil in light shade where it will happily colonise. This is the parent of so many of the pansies we see about today, mostly due to its ability to produce various colours in one flower. H10-15 cm.

*A/P. Sh. Sp-S. 800 sds/gm.*  
**2 grams \$4.60, 10 grams \$11.60**  
Code 485

# Garden Flower Varieties

31

*These flowers have been bred or selected for their excellence in colour, form or fragrance. Most have been chosen for their ease to grow, many are descendants from our wildflowers. They may require just a little more help to get them growing before they burst forth with powerful colour.*

**A:** Annual **B:** Biennial **P:** Perennial **Plant in:** Sun: Full sun **Sh:** Semi shade **Dry:** Low rainfall/dry, sandy soil. **Flowers In:** **Sp:** Spring **S:** Summer **Au:** Autumn  
*Photos are a guide only. Seed Counts are approximate. NOTE: Larger quantities available on request.*

## Growing Seed is Easy

- Most garden flower seeds are best started indoors in trays or pots using the following steps.
- Sow from early Spring to Autumn. Don't sow in cold winter conditions.
- Fill trays with potting or seed raising mix to rim, lightly firm and moisten.
- Sprinkle seeds thinly. Cover larger seeds with a layer of mix twice the seed size. Don't cover fine seed. Gently water.
- Place in a propagator or cover trays with a plastic bag to retain moisture and keep an even temperature.
- Put in light airy place out of direct sunlight.
- Remove bag when seeds have germinated.
- Don't let trays dry out.
- Harden off plants by placing them outside for a few days before planting.
- When large enough thin or transplant to the garden.
- Some seeds, like sunflowers and sweet peas, can be grown directly into the garden.

## Hollyhocks

### HOLLYHOCK - SUMMER CARNIVAL

Magnificent, tall growing plants with double flowers in colours from reds to pinks through to oranges and yellows. Outstanding 150 cm high plants that will flower in first year if sown early.

90 seeds \$4.60 Code 1120

### HOLLYHOCK - EBONY TOWERS

These enchanting deep, maroon-black flowers seem to rebel against nature — just like rock stars of the plant world! A superb, elegant backdrop for the perennial garden. H150 cm.

50 seeds \$4.60 Code 1121

### HOLLYHOCK INDIAN SPRING

The quintessential cottage garden flower. Old-fashioned, single to semi-double flowers in wonderful shades of pale yellow, soft pink and deep rose. Will bloom first year if sown early. H150 cm

90 seeds \$4.60 Code 1123

### HOLLYHOCK - MARJORETTE DWARF

For smaller gardens try these dwarf hollyhocks. They produce tight clusters of fluffy, fully double flowers on bushy plants just 60 cm high. Full colour range.

90 seeds \$4.60 Code 1122

### AMMI VISNAGA

#### *Queen Anne's Lace - Green Mist*

The kissing cousin to Queen Anne's Lace but is greener and fuller. It has wonderful, feathery, greenish-white flowers that compliment any colour scheme in the vase or the garden. Green Mist is a wonderful bouquet filler with a fern-like look. H. 100cm

*A. Sun. S. 200 seeds \$4.60  
Code 1135*

### ANTIRRHINUM

#### *Snapdragon Antiquity Mix*

A new, scented variety that produces a profusion of two-tone flowers in a mix of dazzling shades of pink, red, coral and white. Nice dwarf, bushy habit with outstanding garden performance ideal for larger containers or garden borders. Ideal for attracting bees to the garden. H25-30cm

*A. Sun. S-Au. 50 seeds - \$4.60  
Code 1162*

### AQUILEGIA

#### *Columbine McKana Giants*

Gracefully formed, large, long-spurred, fairy-like flowers in mixed colours. Flowers are held high above the fern like foliage. A woodland species that prefers rich soil and partial shade where you will enjoy the old-fashioned charm. Pre-chill seeds by placing in fridge for 1 week. H60-80cm

*P Sun/Sh. Sp. 100 seeds \$4.60  
Code 1132 6*

### BELLIS PERENNIS

#### *English Daisy Habanera white/red tips*

Like the Catherine Wheel firecracker, the vibrant red tips have the appearance of being spun out on this eye catching bicolour. An explosion of colour is created on these huge flowers that grow profusely on this sensational plant. Hardy. H15cm

*P. Sun-Sun/Sh Sp-S 40 seeds \$4.60  
Code 1172*

### CALLISTEPHUS CHINENSIS

#### *China Aster - Single Mix*

This beautiful annual aster produces single flowers in a mix of purple, deep rose, pink, violet and white. It blooms from mid-summer to early autumn providing colour after many annuals have finished. Excellent for cutting. H. 60cm

*A. Sun S. 500 seeds/gram 2 grams \$4.60  
Code 1193*

### CAMPANULA

#### *Cup & Saucer mix*

Rose, White & Blue large bell-shaped flowers with characteristic saucer petal framing each flower. H 75 cm.

*B. Sh. S-Au. 200 seeds \$4.60  
Code 1154*

### CINERARIA

#### *Satellite Mix*

Traditional pot plant in a range of bright, attractive colours. Flowers stand above the lush foliage in spring and summer. H25cm

*A. Sun/Sh. Sp-S 10 seeds \$6.60  
Code 1255*

### CINERARIA

#### *Satellite Sky Blue*

Fantastic bright blue daisy-like flowers make a wonderful pot plant. Flowers stand above lush foliage in spring and summer. H25cm

*A. Sun/Sh. Sp-S 10 seeds \$6.60  
Code 1256*

### **COSMOS BIPINNATUS**

#### ***Picotee***

The carefree daisy-like white flowers look as though they have been dipped in rosy pink paint. The flowers dance happily above lacy foliage. Easy to grow - scatter at random in the flower border. Excellent when picked for the vase. H110cm

*A. Sun. S-Au 300 seeds \$4.60*  
*Code 1266*

### **COSMOS BIPINNATUS**

#### ***Seashells***

Very distinctive with petals that curl upward at the edges making the appearance of a tube, like a fluted seashell around a button-like centre. The range of pastel colours includes pink, rose, white and carmine. Plant where it can easily be seen. H.100cm

*A. Sun. S-Au 100 seeds \$4.60*  
*Code 1269*

### **DELPHINIUM CONSOLIDA**

#### ***Larkspur - Dwarf Hyacinth Mix***

Gorgeous double flowering spikes are extra dwarf and early to bloom. Colour - shades of blue, lilac, violet and white. Excellent for smaller gardens and equally as beautiful as their taller cousins. Great cut flowers too. H50 cm.

*A. Sun. Sp/S. 300 seeds \$4.60*  
*Code 1288*

### **DELPHINIUM CULTORUM**

#### ***Delphinium - Pacific Giants***

Traditional flower of country and cottage gardens. Well-formed flowers in mixed colours with black or white bees (centre of each flower) that smother the long and sturdy stems. Put them into sheltered areas and remember to stake them. H150 cm

*P. Sun. Sp-S. 75 seeds \$4.60*  
*Code 1290*

### **DELPHINIUM CULTORUM**

#### ***Delphinium Pacific Giants - Galahad***

Spikes of pure white flowers arise from clumps of deeply lobed, rich green foliage. The spurred, semi-double flowers are densely packed on very tall stems and have small white central tufts of stamens known as bees.

*P. Sun. Sp-S. 75 seeds \$4.60*  
*Code 1291*

### **DIANTHUS CARYOPHYLLUS**

#### ***Carnation - Super Chabaud Mix***

Outstanding variety with fragrant, deeply fringed, double flowers on strong stems. The best choice for cut flowers in shades of red, rose, pink, yellow & white. Very uniform in growth, habit and flowering time. H50-60cm

*P. Sun. Sp/Su. 85 seeds \$4.60*  
*Code 1300*

### **DIANTHUS CHINENSIS**

#### ***China Pink Single Mix***

This showy perennial with green, grass-like foliage has single, mixed colour flowers with fringed edges. The 3-4cm wide flowers are produced singly or in small clusters from spring until early summer. Dianthus means 'divine flower' and 'Pink' comes from the old English word 'pyken', to cut or notch. H30-40cm

*P. Sun. Sp/Su. 85 seeds \$4.60*  
*Code 1301*

### **DIANTHUS HYBRIDUS**

#### ***Rainbow Loveliness***

A beautiful heirloom with lacy flower petals and an intoxicating fragrance. The mounding plants are topped with heavily fringed, white, pink, and mauve flowers. Some are bicolored with contrasting eyes. Blooms the first year when started indoors. Wonderful for an old-fashioned cottage garden or perennial border. H45cm

*P. Sun/Sh. Sp/Su. 1500 seeds \$4.60*  
*Code 1293*

**DIGITALIS PURPUREA**  
*Foxglove - Excelsior Mix*

This spectacular form produces tall spikes with flowers fully surrounding the stems. Wide range of colours and will reseed itself. H150 cm

*B. Sun/Sh. S.*  
800 seeds \$4.60, 3000 seeds \$11.20  
Code 1316

**DIGITALIS PURPUREA**  
*Foxglove - Pure White*

Perfect plants for a woodland garden. Tall, majestic spires are both distinctive and highly attractive. Like a cool root run, will seed down for you and make wonderful cut flowers. H120 cm

*B. Sun/Sh. S.* 200 seeds \$4.60  
Code 1311

**DIGITALIS PURPUREA**  
*Foxglove - Tall Regency*

Tall spikes in a wide range of colours all with blotches in their throats. Will self-sow with enthusiasm. H140 cm

*B. Sun/Sh. S.* 800 seeds \$4.60  
Code 1310

**GAZANIA RIGENS**  
*Tiger Mix*

A striking & unique mix of creamy white blooms with rose stripes, bright yellow blooms with red stripes plus other exotic variations. H45cm

*A. Sun. Sp-S.* 20 seeds \$5.50  
Code 1373

# Californian Poppies

If you love poppies and the soft, bushy habit of Californian poppies then here are some options for you. All have fine filigree, silver foliage, are easy to grow (of course) and love hot, sunny, sandy or stony conditions. The flowers will close on cloudy days but their glowing beauty on sunny days makes them well worth the wait! H.30-35 cm.

ESCHSCHOLZIA CALIFORNICA A/P. SUN. DRY. SP-S.

**BRILLIANT MIX**

Pink, cream, lemon, yellow and light and dark orange single flowers.

1000 seeds \$4.60 5000 seeds \$11.20 Code 1350

**WHITE LINEN**

Dreamy, creamy white, single flowers.

1000 seeds \$4.60 5000 seeds \$11.20 Code 1351

**MIKADO**

Dark, mahogany red, single flowers.

1000 seeds \$4.60 5000 seeds \$11.20 Code 1728

**BALLERINA MIX**

Single and semi-double, satiny flowers with crimped petals rather like little ballerina dancers. A real sweetie that will love to dance in your flower garden. Mixed colours, blooms profusely, easy to grow and will self-sow.

1000 seeds \$4.60 5000 seeds \$11.20 Code 1359

# Sunflowers

*Growing tip – sunflowers are best sown in spring to early summer and grown direct into the garden where they will flower.*

## **Sunflower Giant Russian**

Sunshine in the sky – the most well-known variety reaching 2m or more. For really big flowers trim off buds to leave just one or two. A fun plant for kids to grow and the seeds make a tasty snack!

20 seeds \$4.60  
Code 1400

## **Sunflower ProCut White Nite**

Amazing blooms that open with a creamy vanilla colour quickly turning white in a few days of sunlight contrasted with a dark pollen free centre H150cm

10 seeds \$4.60  
Code 1409

## **Sunflower Sunrich Gold**

The number one cut flower sunflower in the world. Golden yellow flowers with black centres on single stems. Takes only 70 days to bloom and pollen-less means no mess indoors on the furniture. H60-90 cm

20 seeds \$4.60  
Code 1403

## **Sunflower American Giant**

This super tall hybrid sunflower is a sure bet if you are looking to grow the tallest sunflower in the neighbourhood and it is less likely to fall over in wind or rain like other giants. H3-5 metres tall

10 seeds \$4.60  
Code 1406

## **Sunflower Moulin Rouge**

The ultimate red-hot sunflower, and one of the most popular. Moulin Rouge produces excellent red flowers with dark branching stems. Great for cutting. H150cm.

20 seeds \$4.60  
Code 1405

## **Sunflower Dwarf Teddy Bear**

Big, double, fluffy teddy bear of a flower. A real eye-catcher in the border, looks good in containers and is a must for its long lasting, impressive appearance in a vase. Irresistible and just the right height for kids to enjoy. H40 cm.

20 seeds \$4.60 Code 1401

## **Sunflower Music Box**

A fine strain of dwarf sunflower that has a branching, uniform habit. Lots of large, dark-centred flowers in a range of bright colours from cream to yellow and mahogany including some lovely bicolours. H70cm

20 seeds \$4.60 Code 1414

## **Sunflower Golden Grown**

Very similar Russian Giant but with very large brown centres and yellow petals. H.200cm

30 seeds \$4.60  
Code 1408

**GOMPHRENA**  
**Globe Amaranth - Audrey**  
**Bicolour Rose**

The flowers are excellent for cutting. The pointy leaves remain light green in colour with distinctive red edges throughout the season. H45cm

**A. Sun. Sp-Au. 50 seed \$4.60**  
**Code 1374**

**GYPSOPHILA ELEGANS**  
**Rosea (Light Pink Baby's**  
**Breath)**

Not only does this plant decorate every bouquet in its own special way, it also beautifies every flower bed with its appearance. An upright plant with grey/green foliage producing sprays of light pink/rose coloured flowers. Good for borders. Quick growing. H45cm

**A. Sun. S-Au. 2000 seeds \$4.60**  
**Code 1382**

**GYPSOPHILA PANICULATA**  
**Baby's Breath Double**  
**Snowflake**

Hundreds of double, and semi-double dainty white flowers smother the branching stems throughout summer to autumn. A popular cut flower for use fresh or in dried arrangements. An airy, upright growth habit and long-time favourite. H60-80cm

**P. Sun. S-Au. 100 seeds - \$4.60**  
**Code 1381**

**IBERIS UMBELLATA**  
**Candytuft Dwarf Fairy Mix**

Add an old-fashioned charm to your garden with these lovely flowers in candy-coloured shades of pink, lavender and white. These cute flowers look cheerful in the garden or in pots. H30cm

**A. Sun. S-Au. 300 seeds \$4.60**  
**Code 1416**

**IBERIS UMBELLATA**  
**Candytuft Tall Mix**

Showy clusters of small flowers in shades of lilac, pink and white. Lance-shaped, dark-green leaves. The fragrant blooms are attractive to bees and butterflies. Fast and easy to grow & a lovely mixer in the garden. H45-60cm

**A. Sun. S-Au. 300 seeds \$4.60**  
**Code 1417**

**IMPATIENS WALLERIANA**  
**Beacon Red**

A Dwarf Busy Lizzie with a High resistance to Downy Mildew disease. A lovely warm-toned red on upright and moderately vigorous plants with mid-green foliage. Very weather resistant. Sure to brighten up a part shady corner but will take sunshine as well. H25-30cm

**A. Sun - Sh. Su/Au 25 Seeds \$5.50**  
**Code 1418**

**LOBULARIA MARITIMA**  
**Sweet Alyssum Easter Bonnet**  
**Mix**

A delicate carpet of tiny flowers in soft, cool colours and a subtle, sweet fragrance. Its tidy, compact and slightly creeping habit makes it ideal for edging, filling gaps and perfect for containers. Very early flowering and easy to grow. H 10-20cm

**A. Sun. Sp-S. 200 Seeds \$4.60**  
**Code 1531**

**LUNARIA BIENNIS**  
**Money Plant, Honesty**

An interesting plant with heads of purple flowers in early summer. These are replaced by translucent, rounded and flat seed pods looking a bit like silvery coins. Stems of seed pods make ideal dried floral decorations. Easy to grow, seeds down well. H60-80cm

**B. Sun/Shade Sp**  
**120 seeds \$4.60**  
**Code 1428**

**LUPINUS POLYPHYLLUS**  
**Lupin - Russell Mix**

Lupin flowers are shaped like pea flowers and are carried in dense slender spikes. This variety is the result of a series of selections going back to the 20th century. Most of the wild lupins in the South Island are derived from this same selection. Wide colour range. H90 cm

**P. Sun. S. 150 seeds \$4.60**  
**Code 1520**

**MATTHIOLA INCANA**  
**Stock - Vintage Copper**

A delightful cottage garden plant with rich copper-rose flowers. Ideal for garden borders or cut flowers, but above all it is its wonderful clove-like fragrance that gardeners love. Sturdy plants with over half producing double flowers. Best sown in early spring or autumn H40cm

**A. Sun. S-A. 50 seeds - \$4.60**  
**Code 1551**

**MATTHIOLA INCANA**  
*Stock - Vintage Lavender*

Beautiful as they are aromatic, these plants produce short branches lined with spicy lavender flowers. Smooth grey-green foliage. Great cut flower. Best sown in early spring or autumn. H40cm

*A. Sun. S-A. 50 seeds - \$4.60*  
*Code 1558*

**MESEMBRYANTHEMUM**  
**CRINIFLORUM**  
*Livingston Daisy Mix*

Mix of bright colours that make an awesome ground cover. Ideal for garden beds, rockeries, and patio tubs. These frost tender succulents thrive in sunny, dry conditions and bloom for weeks in spring and summer. H20cm W30cm

*A. Sun. S. 1500 seed \$4.60*  
*Code 1561*

**MOLUCELLE LAEVIS**  
*Bells of Ireland*

Grown for its, bell-shaped calyxes. This old-fashioned garden annual is useful as a fresh or dried flower. Fragrant, but inconspicuous and white. Grows best in full sun but tolerate some shade and poor soils if very well-drained. Does not grow well in hot, humid climates. Reseeds readily. H 60-90cm

*A. Sun-Sun/Sh. S 400 seeds \$4.60*  
*Code 1562*

**NEMOPHILA**  
*Penny Black*

Dainty two-toned flowers are nearly black with a narrow white edge. This will make a unique addition to your garden with its airy, light green foliage. Outstanding as a border and grows well in a container. 90 cm

*A. Sh. Sp 100 SEEDS \$5.50*  
*Code 1595*

**PETUNIA**  
*Double Red Pirouette*

Very impressive fully double blooms swirled in red shades with contrasting white ruffled edges. The large blooms blanket compact, robust plants - superb for hanging baskets or planters. They flower for a long season, impervious to heat and adverse weather. H30cm

*A. Sun. S-A. 50 seeds \$4.60*  
*Code 1677*

# Poppies

*For an easily grown splash of colour, few flowers can equal Poppies for their flowers produced in profusion throughout spring and summer.*

**PAPAVER COMMUTATUM**  
*Ladybird Poppy*

Always a showstopper. Very similar to our wonderful Soldier Poppy but much smaller and tidier growth habit. Bright scarlet single poppy flowers with black blotches. Great for smaller gardens. H30-50 cm

*A. Sun. Sp-S. 250 seeds \$4.60*  
*Code 1620*

**PAPAVER NUDICAULE**  
*Artist's Glory*

Flowers like crinkled sheer silk and in a wide colour range. Foliage forms clumps that send up sturdy stems topped with fragrant blooms. Best sown in autumn or early spring. Wonderful cut flowers - cut while in bud and seal the stems. H40 cm.

*A. Sun. Sp 250 seeds \$4.60*  
*Code 1625*

**PAPAVER ORIENTALE**  
*Oriental Poppy - Pizzicato Mix*

Semi-dwarf perennial with large, fluffy, crepe-papery red, orange, salmon, mauve and pink flowers. Incredibly profuse with strong stems that can withstand windy sites. They like a dry well drained soil. H60cm

*P. Sp. Sp-S. 100 seeds \$4.60*  
*Code 1633*

**PAPAVER PEONIFLORUM**  
*Peony Poppy Double Mix*

These are often regarded as the most beautiful of summer flowers. Abundant, full double flowers up to 10 cm wide with crinkled petals in black, pink, purple, scarlet, white & yellow. Large blue-grey leaves. H90 cm

*A. Sun. S. 100 seeds \$4.60*  
*Code 1635*

**PAPAVER RHOEAS**  
*Shirley Poppy Double*

Large double blooms like crumpled tissue paper. Pastel shades of pink, raspberry, red and scarlet suffused cream as well as some bicolors. Gorgeous poppies reminiscent of yesteryear. Easy to grow lots of them. H60 cm.

*A. Sun. Sp-S 1500 seeds \$4.460*  
*Code 1650*

**PLATYCODON  
GRANDIFLORUS**

**Balloon Flower Astra Blue**

Forms a compact mound of green foliage, bearing inflated buds that open into star shaped single violet-blue blossoms. An excellent addition to rock gardens and mixed containers H 25cm.

*P. Sun/Sh. S. 25 seeds \$5.50  
Code 1682*

**PLATYCODON  
GRANDIFLORUS**

**Balloon Flower Astra Pink**

Forms a compact mound of green foliage, bearing inflated buds that open into star shaped single pink blossoms. Use for rock gardens, edging, border fronts or containers. H 25cm.

*P. Sun/Sh. S. 25 seeds \$5.50  
Code 1683*

**PLATYCODON  
GRANDIFLORUS**

**Balloon Flower Astra White**

Forms a compact mound of green foliage, bearing inflated buds that open into upward facing, bell shaped single pure white flowers. An excellent addition to rock gardens and mixed containers H 25cm.

*P. Sun/Sh. S. 25 seeds \$5.50  
Code 1684*

**RESEDA ODORATA**  
*Sweet Mignonette*

Widely grown for its spiky flower clusters of greenish flowers with a reddish-white fringe. Mignonette was popular in Victorian times and is a cottage favourite still. Can be grown in pots or direct into the garden border. H30cm

*A. Sun/Sh S. 2000 seeds \$4.60  
Code 1690*

**SALVIA NEMOROSA**  
*New Dimension Blue*

Flowers in deepest violet. Leaves are aromatic. A dwarf Salvia perfect for the front of the border, edging or containers. Long blooming. A quick trim after flowering will bring autumn flowers. Easily grown. Will flower in the first year. H30cm

*P. Sun. SP-Au. 40 seeds \$4.60  
Code 1713*

**SALVIA NEMOROSA**  
*New Dimension Rose*

Salvias have always been the perfect and favourite solution for summer borders. This one has small rose pink spikes on compact and well-branched plants. A long bloomer, it will bring wave after wave of flowers from late spring to autumn. Easily grown and will flower in the first year. H30cm

*P. Sun. SP-Au. 40 seeds \$4.60  
Code 1712*

**TROPAEOLUM MINUS**  
*Nasturtium Top Flowering Mix*

A bright blend of red, gold, lemon, mahogany, orange and scarlet Nasturtiums held above compact plants with bright green foliage. Flowers are edible with a mild peppery taste. Maturity 75 days from direct sowing. H20-30cm

*A. Sun/Sh. Sp-A. 30 seeds \$4.60  
Code 1774*

**VINCA**  
*Mediterranean Mix*

Beautiful trailing plants so many flowers they will almost cover a basket or pot. Large, bright flowers in shades of pink, lilac, white & apricot. An outstanding performer that can cope with dry summer conditions. H10-15cm x 50-70cm wide

*A. Sun. S-Au. 40 seeds \$4.60  
Code 1810*

**VIOLA**  
*Pansy Frizzle Sizzle Mix*

Cheerful and unique flowers quite unlike other pansies. The large flowers are completely ruffled along the edges and set atop short but sturdy stems. A colourful mix of bold, bright colours each with the central dark blotch. Perfect in borders, containers and baskets.

*A. Sun/Sh. Sp. 25 seeds \$4.60  
Code 1794*

**VIOLA**  
*Pansy Swiss Giants Mix*

Colour up your pots and borders with these large faces with a charm all their own. Old fashioned variety, easy and reliable.

*A. Sun/Sh. Sp. 90 seeds \$4.60

# Sweetpeas

*Growing tip – Sweet peas are best sown directly into the garden in autumn or spring. Plants sown in early spring may be a bit smaller but will still produce good flowers. Soak seeds overnight to add germination. Pop them against a trellis or fence in a sunny area and savour the fragrance. Height 1.8-2m*

## **Sweet Pea – Berry Fruit Mix**

Sweet and luscious Keith Hammett mix in shades of purple, mauve and red. A cheerful mix to brighten any garden.

**20 seeds \$4.80 Code 1521**

## **Sweet Pea - Bijou Mix**

Small bushy plants, great for borders or planter boxes. Large, aromatic flowers, good colour range, early flowering with stems long enough for cutting. Plant in clumps and provide some support. H.30-45 cm

**20 seeds \$4.80 100 seeds \$12.70 Code 1453**

## **Sweet Pea - Early Multiflora**

A vibrant and striking mix of early flowering Heirloom sweet peas. Lavender, pink, purple, white & red flowers all with that old fashioned intoxicating fragrance. Climber to 2m

**20 seeds \$4.80 100 seeds \$12.70 Code 1548**

## **Sweet Pea – Mammoth Mix**

Mix of long stemmed, extra-large, long lasting, highly scented flowers that prefer cooler summers.

**20 seeds \$4.80 100 seeds \$12.70  
Code 1505**

## **Sweet Pea - Heirloom Mix**

A vibrant and striking mix of heirloom varieties. Everything from dark to lighter shades plus stripes and bicolours, all with that old fashioned intoxicating fragrance.

**20 seeds \$4.80 100 seeds \$12.70  
Code 1472**

## **Sweet Pea – Kaleidoscope**

The best and most varied sweet pea mix from Dr Hammett's incredible range. Ideal for trellis or fence.

**20 seeds \$4.80  
Code 1522**

## **Sweet Pea - Love Me Do**

Mix of Royal Sweet Peas & Heirloom Sweet Peas. Climbing types in a wide colour range and good fragrance.

**20 seeds \$4.80 100 seeds \$12.70  
Code 1547**

## **Sweet Pea - Royal Mix**

One of the finest mixes. Fragrant flowers borne on long stems, making them unsurpassed cut flowers. Best of the modern climbing types in a wide colour range, flowering all summer long.

**20 seeds \$4.80 100 seeds \$12.70  
Code 1451**

# Hammett Sweetpeas

Bred here in New Zealand by Dr Keith Hammett.

41

## **Sweet Pea – Aoraki**

Early flowering white, 6-7 blooms per long stems. Named after New Zealand's tallest mountain Aoraki Mount Cook.

15 seeds \$6.00 Code 1512

## **Sweet Pea – Cupid Pink**

Bushy dwarf form ideal for containers and borders. Rose-pink and white, fragrant flowers smother the plants - Can withstand heat and drought well. Best sown in small groups. Height 30cm

15 seeds \$6.00 Code 1529

## **Sweet Pea – Enchante**

A superb tricolour which has large pink and mauve coloured petals fading onto a cream background. Very colourful flowers with a good fragrance. A vigorous climber to cover a trellis or fence.

15 seeds \$6.00 Code 1516

## **Sweet Pea – Enigma**

A uniquely scented Sweet Pea with medium size flowers with intriguing pink markings

15 seeds \$6.00 Code 1449

## **Sweet Pea – Lipstick**

Bold crimson-red, frilly, fragrant blooms on long stems. Late flowering, sow in June where possible

15 seeds \$6.00 Code 1442

## **Sweet Pea – Little Red riding Hood**

It's easy to see how this variety got its name. It has the most distinct contrast between standard and wing petals of any Sweet Pea and it also has a powerful fragrance.

15 seeds \$6.00 Code 1442

## **Sweet Pea - More Scent**

As it's name suggests, this one just has more scent. So if you are looking fragrance, then look no further. Lovely mauve and white flowers with light purple veins.

15 seeds \$6.00 Code 1502

## **Sweet Pea – My Navy**

A medium sized, frilly, summer flowering cultivar. These gorgeous navy blue flowers are wonderful on their own or in a mixed bunch where they will contrast well with paler colours.

15 seeds \$6.00 Code 1491

## **Sweet Pea – Pandemonium**

A striking summer flowering sweet pea with pink and purple flakes on a paler background

15 seeds \$6.00 Code 1556

## **Sweet Pea – Pathfinder**

A new mix of bicoloured flowers where the colour of the standard petal is distinct from that of the wing petals. Standard and reverse bicolours included in wonderful colour tones.

15 seeds \$6.00 Code 1507

# Business Promotion Seed Packets

*Attract customers to your business using these seed packets with your own personal message*

**Choose from the following options:**

*Forget-Me-Nots, Wildflower Mix, Pink Poppies, Red Poppies, Blue Cornflowers, Sunflowers*

***Say thank you to existing clients or promote your business and attract new clients. It's a living gift!***

After the gift is acknowledged and the seed is sown you will be remembered when the flowers bloom! Seeds from you get sown in people's minds as well as their gardens.

A perfect promotional tool.

It's personal, easy, different, memorable, special, very cost effective and... IT WORKS!!!

We print your name, a personal message, your logo or photograph onto labels attached to our white, 90 x 125 mm seed envelopes. If preferred, we could use a more eco-friendly, manila envelope. Use our standard designs or design a packet yourself. Growing information is on the reverse of the envelope. Seeds are in a foil sachet inside.

**Also a perfect solution for small gifts at Christmas time. Simply pop them inside a card – it's easy, personalised and very cost effective.**

**Use our Christmas designs or create your own. Contact us for ideas.**

## Business Promotion Seed Packets Minimum order 24

24-99 \$2.90 each

100-299 \$2.70 each

300-499 \$2.40 each

Further discounts on orders over 500.

Prices include GST. Freight is extra.

Contact John for a sample.

**Further discounts on orders over 1000. Prices include GST. Freight is extra.**

# Business Promotion Mini Seed Sachets

***The perfect solution for bulk give-aways or business promotions. These foil seed sachets have labels attached directly onto them with your printed message on the front & growing details on the back.***

The small size, 75 x 70 mm, means they can easily be popped into mailing envelopes or attached to personal letters or cards posted to your clients. An excellent, cost effective idea for large scale promotions through to smaller, advertising programmes.

Design and seed options are the same as above.

## Business Promotion Mini Seed Sachets

2 gram packets Minimum order 60

60-99 \$1.85 each

100-299 \$1.70 each

300-499 \$1.55 each

500-999 \$1.50 each

**Contact John for a sample.**
